

MANDATORY PROFESSIONAL LICENSURE DISCLOSURE- RESPIRATORY CARE

New York State prides itself in the high quality of its licensed and certified professionals. To protect its citizens, New York State requires that individuals meet specific criteria to obtain a license or certificate. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. This is a role SUNY plays in protecting the public. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

Per U.S. Federal Regulations §668.14 and §668.43, and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 25.2, SUNY Mohawk Valley Community College provides this disclosure related to the educational requirements for professional licensure and certification.¹

This disclosure is strictly limited to the SUNY Mohawk Valley Community College's determination of whether its education program, ***Associate in Applied Science, Respiratory Care***, that if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a State.² SUNY Mohawk Valley Community College cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact-specific determinations.

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does *not* account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made.

SUNY Mohawk Valley Community College has designed an educational program curriculum for an ***Associate in Applied Science, Respiratory Care***. If successfully completed, it is sufficient to meet the licensure requirements for a professional license in the following state³: New York.

<https://www.op.nysed.gov/respiratory-therapists>

States where the program does not meet licensure requirements: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

¹The terms related to advance practice, including licensure and certification, among others, vary by state and your state may use different terms.

² This determination is based on the educational and curricular requirements of each state for licensure (i.e., excluding any special, temporary licensure that may be granted) and does **not** imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment. Each student should verify their specific situation with the licensing entity in their intended state.

³ If the State does not regulate/licensure, SUNY's program has been determined to be sufficient for these purposes.
