

Jean A. Stark, AIA, LEED AP

Vice President

Jean is a skilled architect who excels in academic programming and space needs analyses. Over the past 25 years, she has crafted space programs, program studies, and master plans that artfully weave together creative, strategic ideas with meticulous attention to detail.

Jean has the unique ability to evaluate complex data, determine its relevancy, and present it clearly. She has a deep understanding of the space needs associated with a myriad of academic programs.
